

A photograph of a stream with a large mossy log, green plants, and water. The log is covered in green moss and is partially submerged in the water. The water is dark and reflects the surrounding greenery. There are several green plants with small white flowers growing along the banks of the stream.

Erie Canal Park & Preserve

Town of Pittsford Board of Trustees Meeting
October 1, 2019

Meeting Agenda

- 1 Project Overview
- 2 Master Plan
- 3 Trail Alignment & Key Features
- 4 Historic Barn
- 5 Schedule & Process

Project Overview

- 1 Erie Canal Park & Preserve **MASTER PLAN**
- 2 Design and Implementation of a **SHARED USE TRAIL** connection between the Auburn Rail Trail and Erie Canalway Trail, trail amenities, wetland improvements, and canal frontage improvements.
- 3 Historic Cass-Smith-Snyder **BARN RECONSTRUCTION**

Master Plan

Master Plan

Determined based on existing conditions

- Topography
- Soil Conditions
- Interpretive Opportunities
- Views
- Significant Vegetation

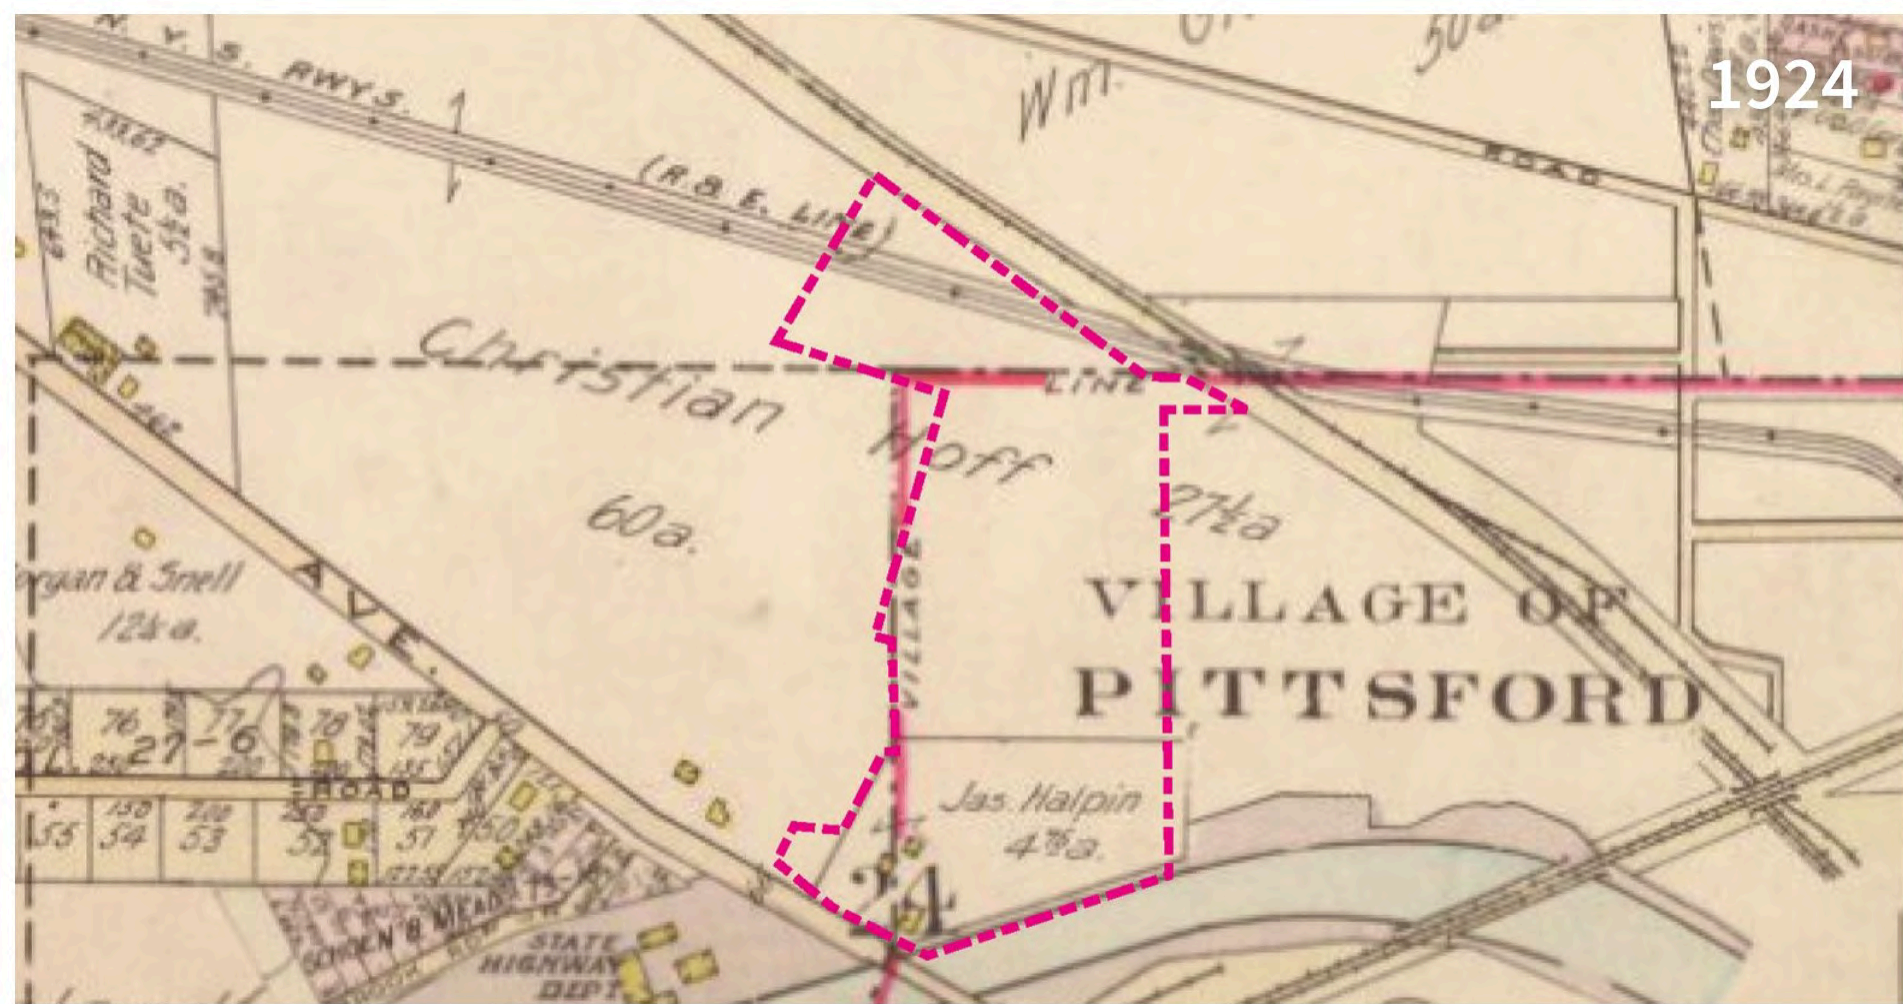

Trail Alignment & Key Features

- Views to Trolley Remnants
- Creekside Rest Area
- Frog Pond Overlook
- Meadow Overlooks
- Historic Barn

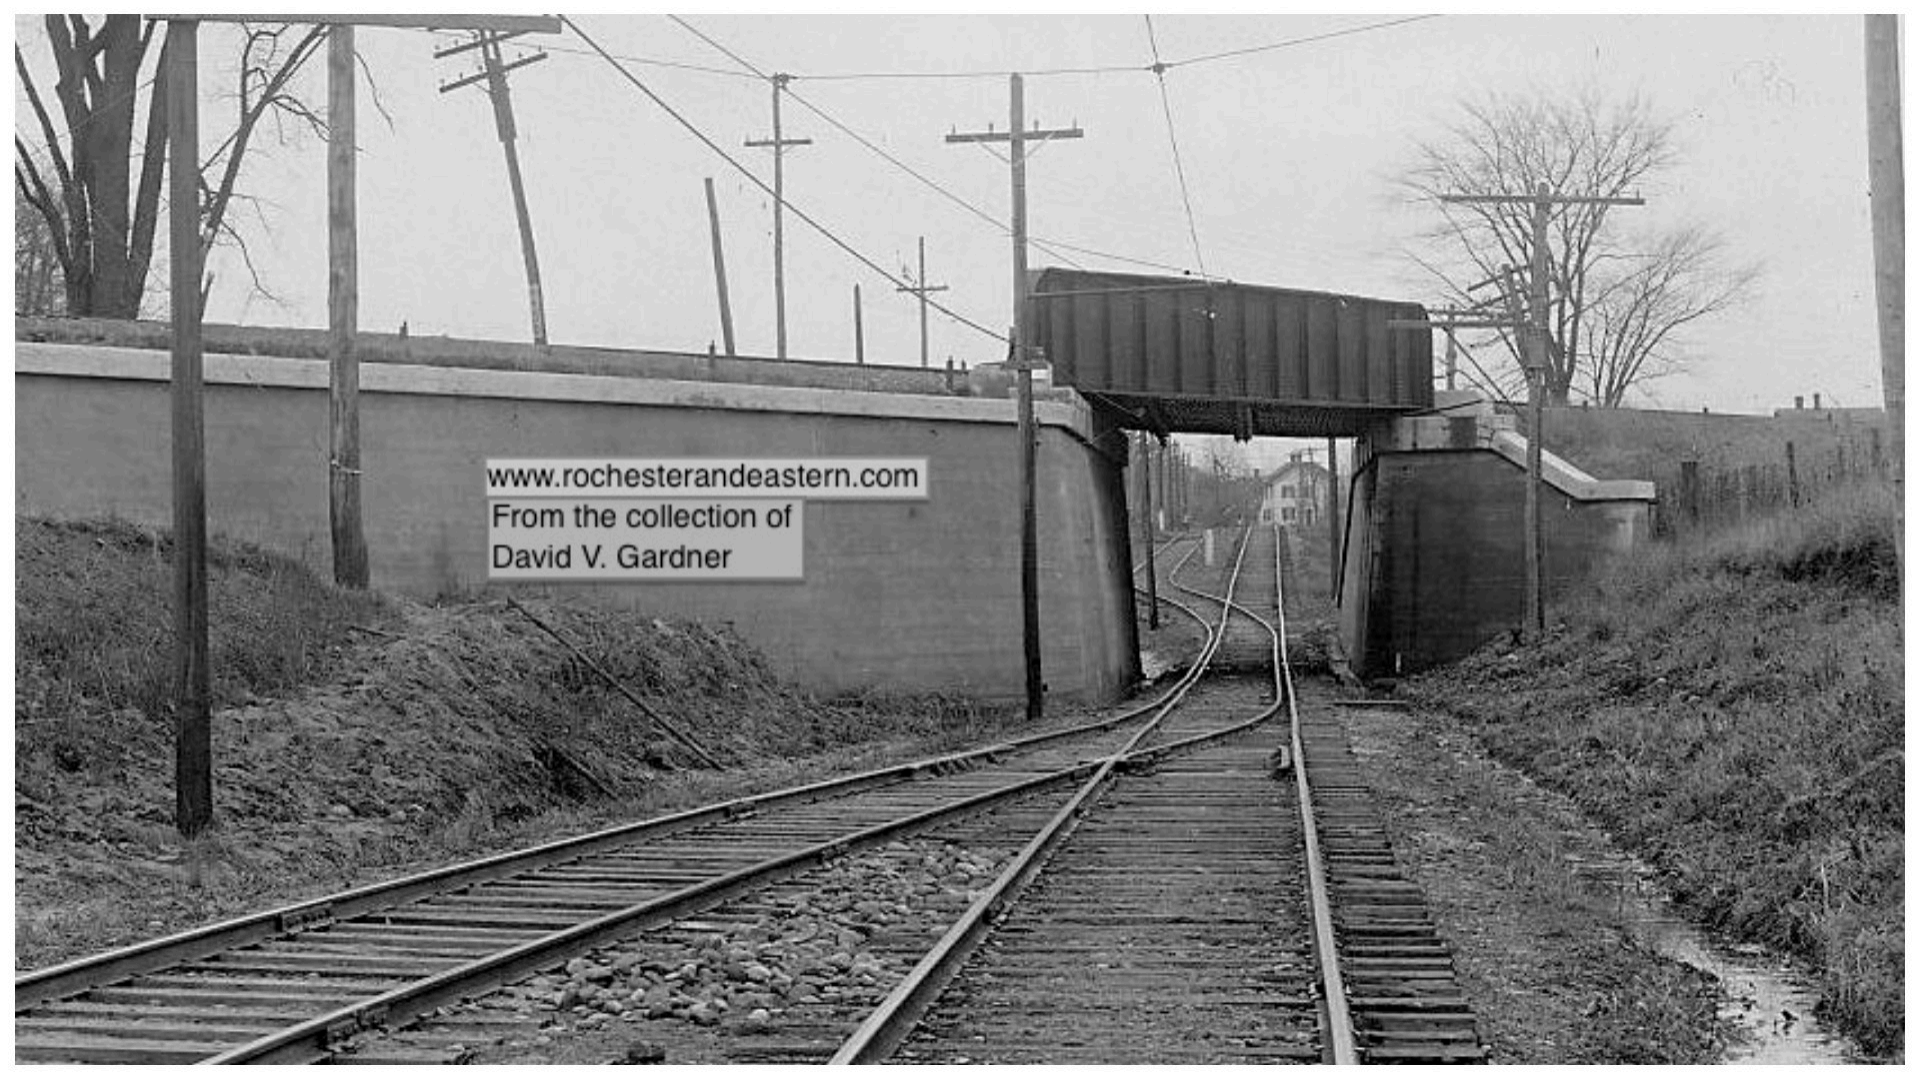

VIEWS TO TROLLEY REMNANTS

1924

1924

A black and white photograph of a railroad track curving to the right. The track is made of wooden ties and metal rails, set on a bed of gravel. To the left of the track is a high, light-colored concrete wall. To the right is a grassy embankment. In the background, a dark, arched bridge or tunnel structure spans the tracks. Several utility poles with cross-arms and wires are visible along the left side of the track. Bare trees are visible in the distance. The sky is overcast.

ABUTMENT WALL
REMNANTS

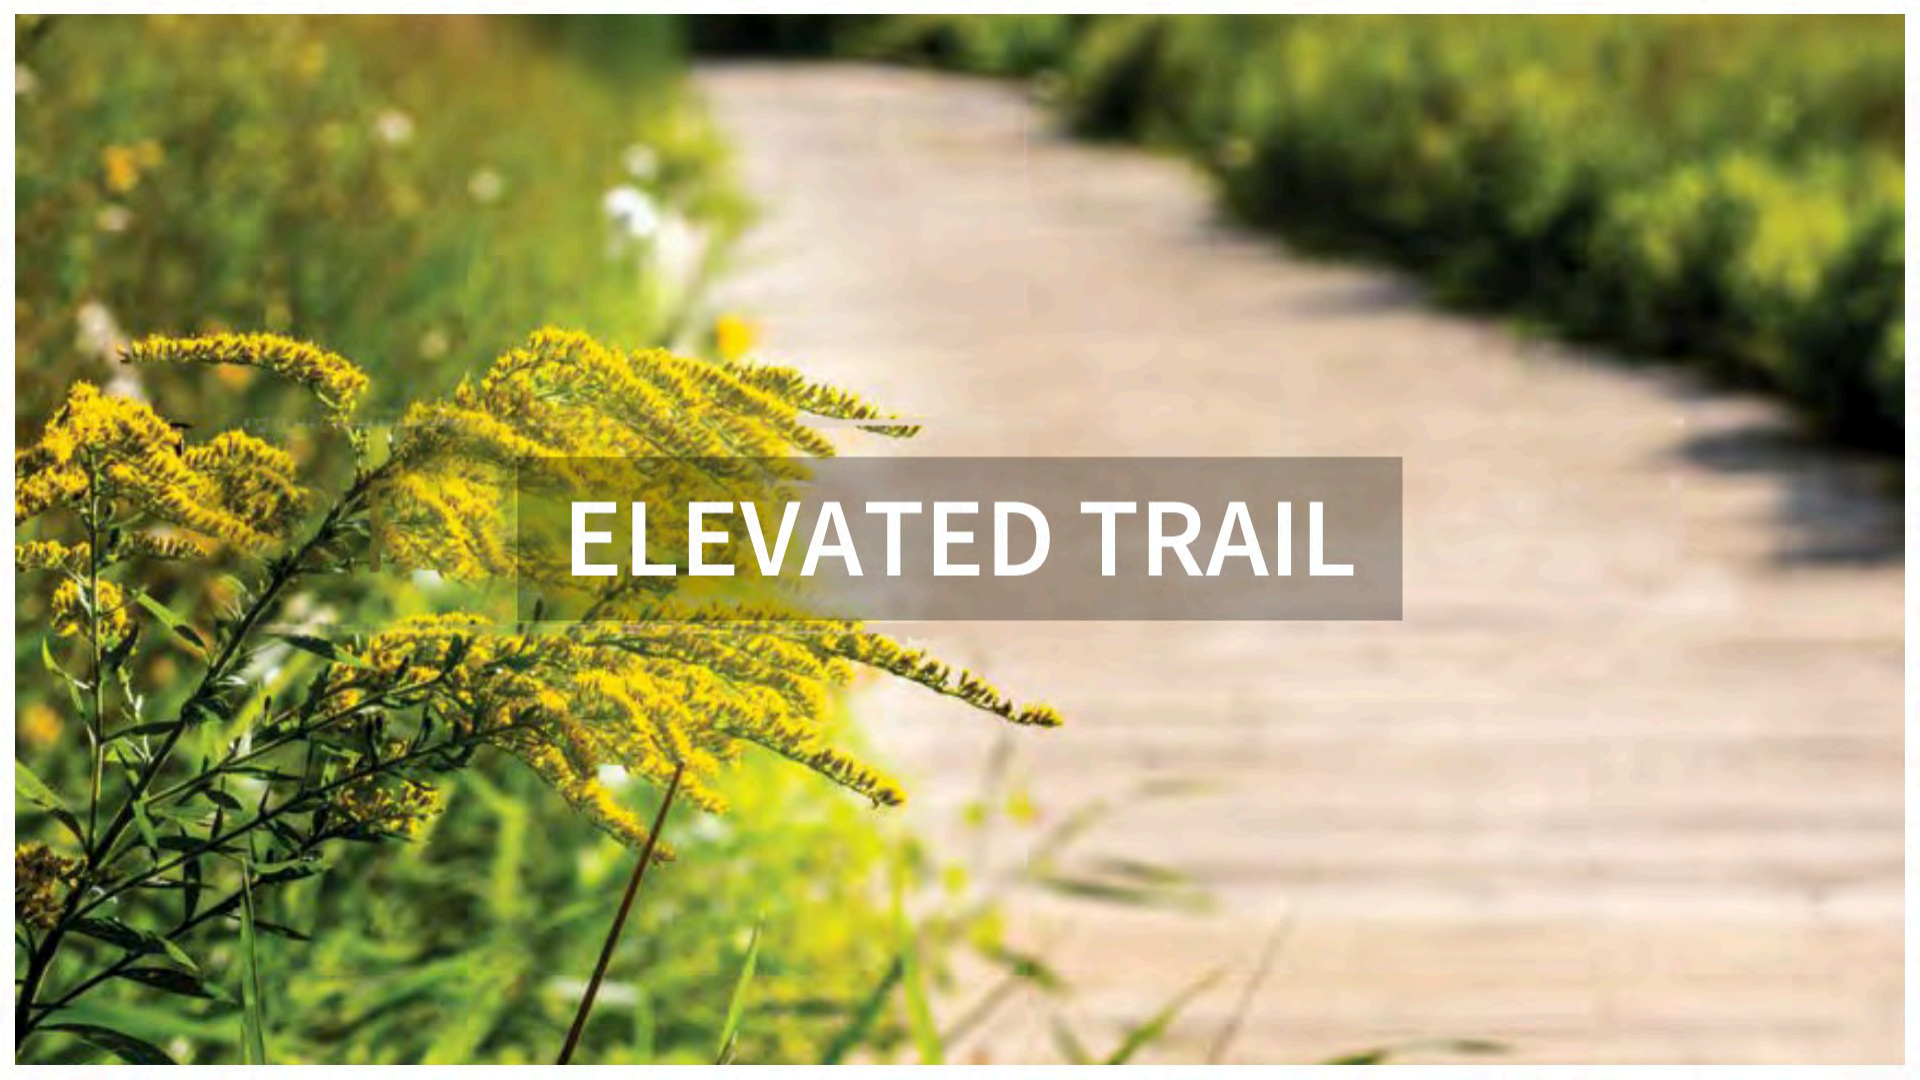

A photograph of a small stream flowing over rocks, surrounded by lush green vegetation. The text "CREEKSIDE REST AREA" is overlaid in white.

CREEKSIDE REST AREA

VIEW TO EXISTING PATH ALONG CREEK AND WET AREA

A photograph of a paved trail winding through a green field. In the foreground, there are yellow wildflowers. The text "ELEVATED TRAIL" is overlaid in white on a dark gray rectangular background.

ELEVATED TRAIL

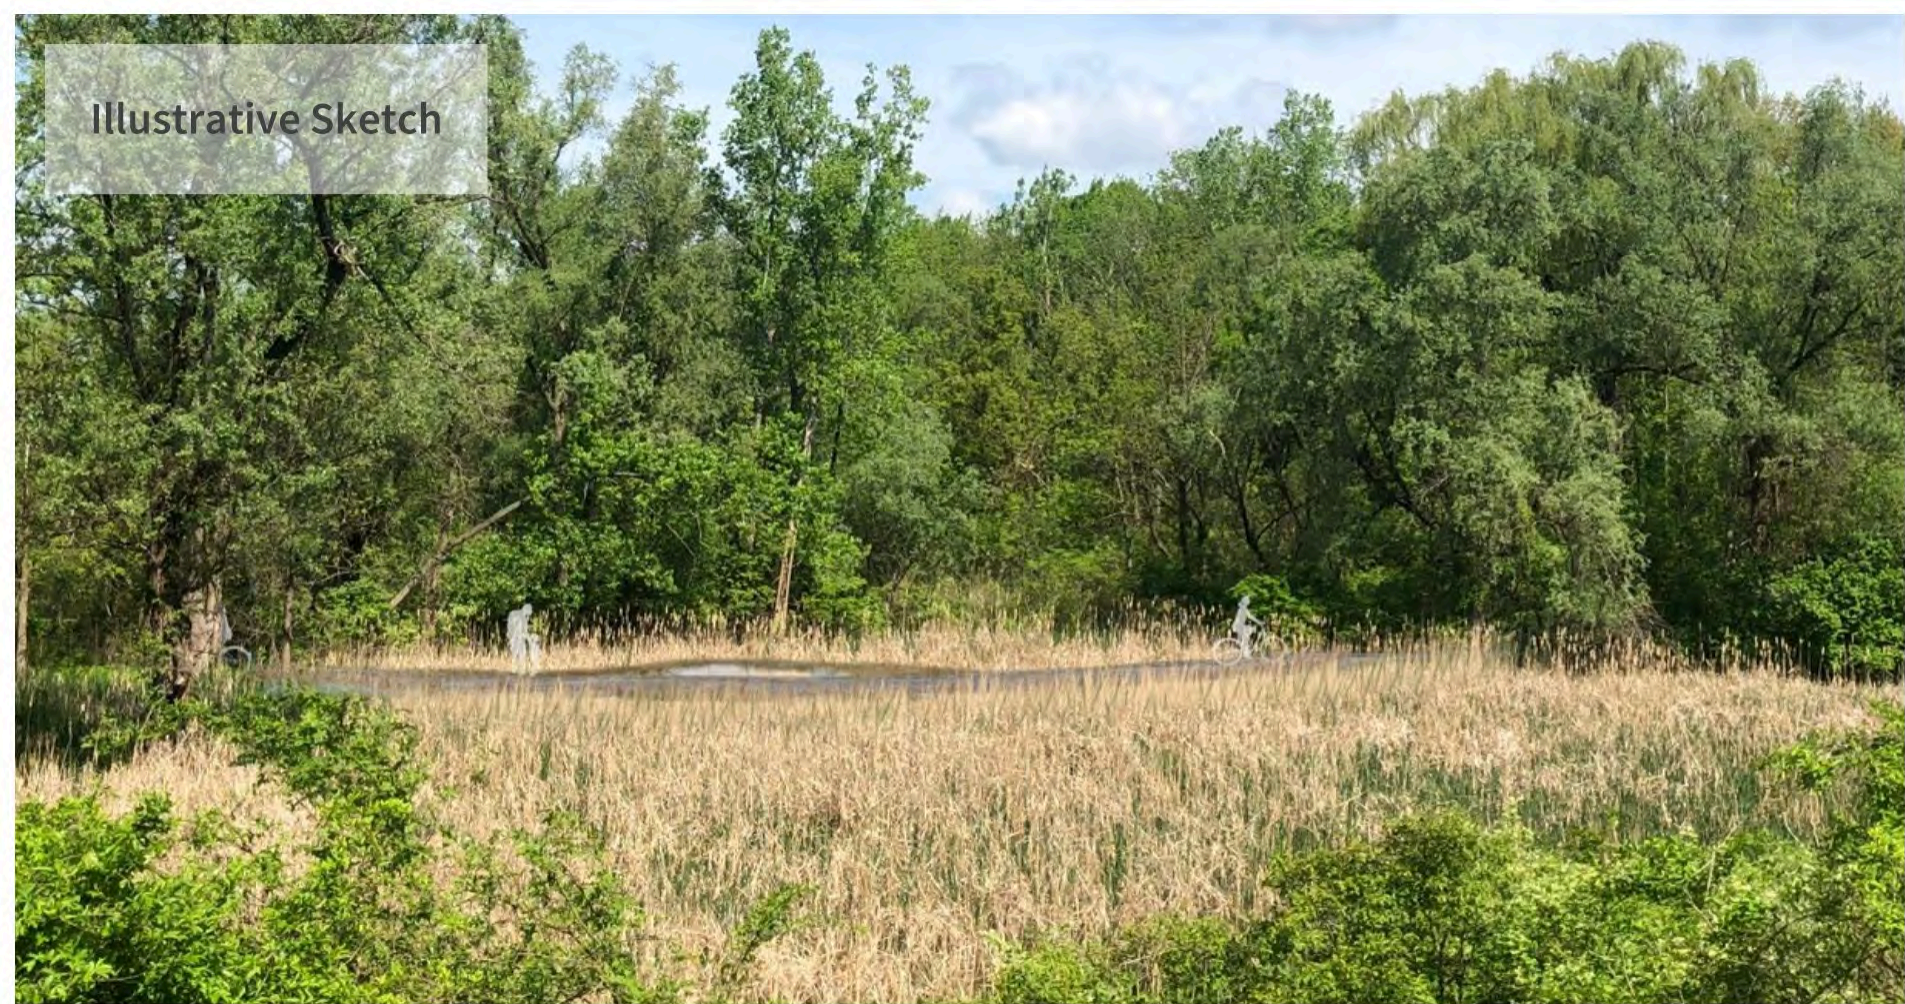

Existing Conditions

Illustrative Sketch

A close-up photograph of a lush green field with yellow and purple wildflowers. The text "ADDITIONAL TRAIL AMENITIES" is overlaid in white.

ADDITIONAL TRAIL AMENITIES

Frog Pond Overlook

Meadow Area

A photograph of a lush green grassy meadow in the foreground, with a dense forest of tall trees in the background. The trees have vibrant green leaves, and the sky is visible through the canopy. A semi-transparent text box in the top left corner contains the title.

Grassy Meadow

HISTORIC BARN RECONSTRUCTION

Historic Barn

Cass-Smith-Snyder

Formerly at 1733 Calkins Road. The barn is a 40x60 gable barn over 150 years old (circa 1850-60). It was once part of a large horse farm operation and is a prime example of barn architecture of that period in time.

HISTORIC PITTSFORD
SUMMER 2015

Preliminary Layout Plan

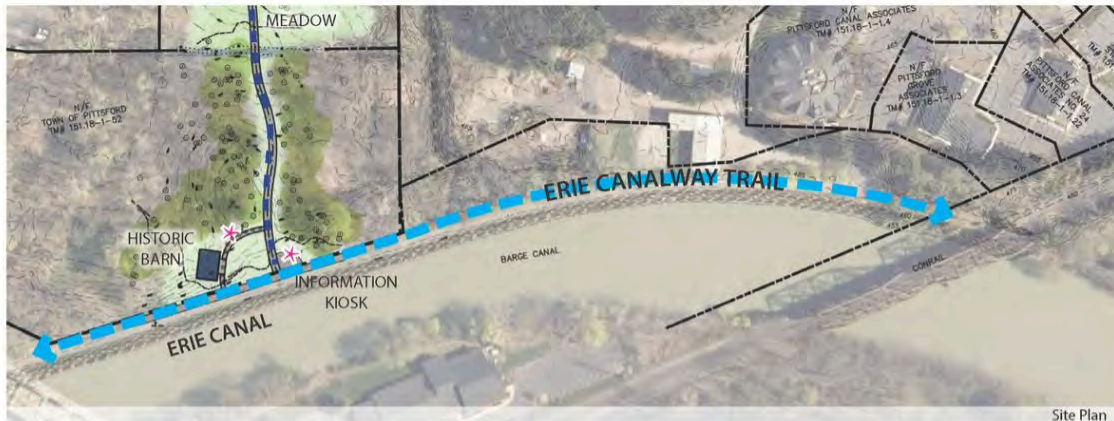

PROPOSED VIEW SOUTH EAST FROM BARN

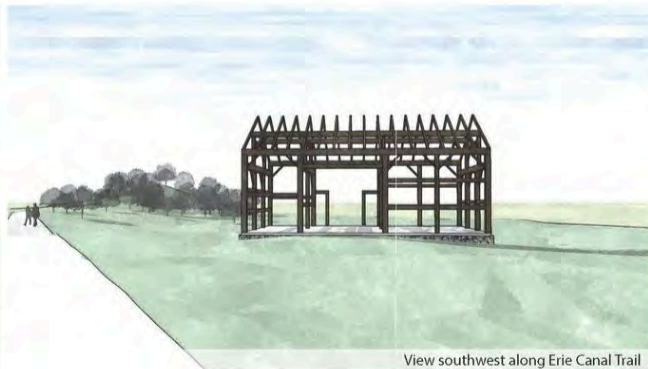

Existing view looking northeast, from approximate location of barn.

Site Plan

View northeast along Erie Canal Trail

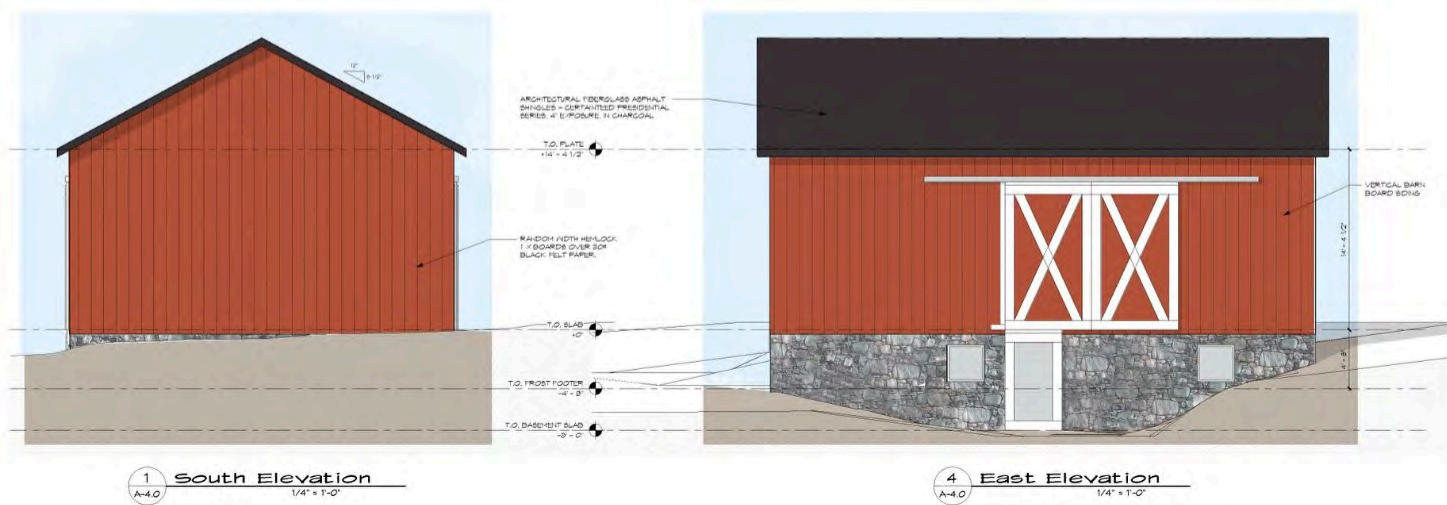

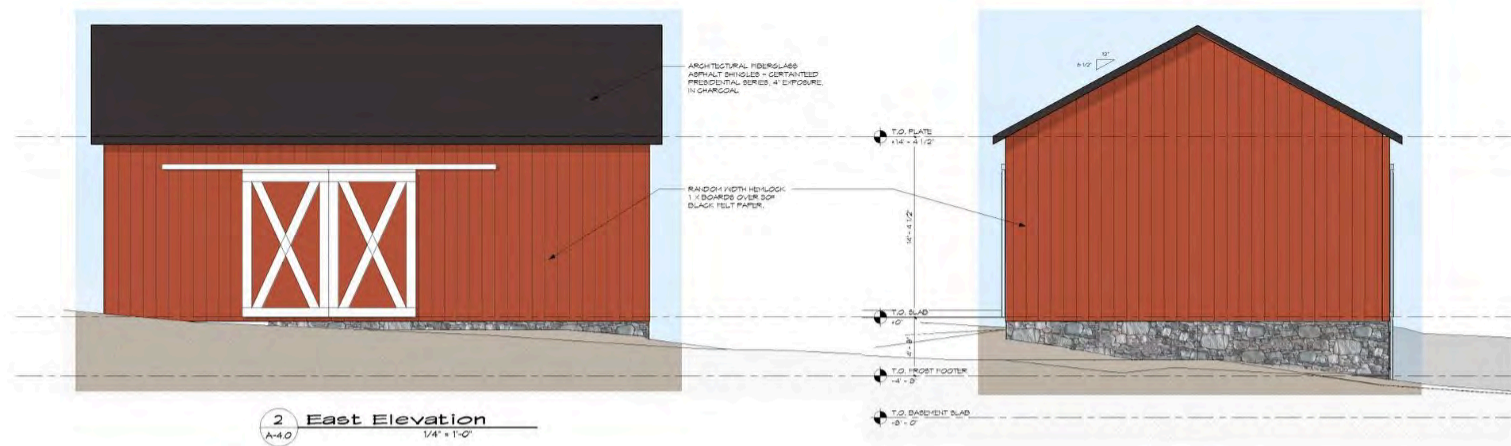

View southwest along Erie Canal Trail

View of bank barn lower level looking southeast from property

Illustrative sketches above depict proposed bank barn location and relationship to the topography of the property and relationship to the Erie Canal. Please note the framing shown is representative of the actual salvaged historic barn framing. The facade and finish materials are to be selected.

BARN LOCATION SKETCHES

Schedule

Approval & Permitting Process

1 Approvals (Early Fall)

Town of Pittsford / SEQRA Determination (Coordinated Review)

Village Planning Board / Site Plan Approval

Village Planning Board / LWRP Costal Assessment Form

Village Architectural Preservation Review / Cert. of Approval

SHPO / Letter of Effect (Submitted September)

2 Permits (Late Fall)

Army Corps of Engineers & DEC / Joint Permit Application

Canal Corporation / Work and Occupancy Permit

A photograph of a stream with a large mossy log, green plants, and water. The log is covered in green moss and is partially submerged in the water. The water is dark and reflects the surrounding greenery. There are various green plants, including some with small white flowers, growing along the banks and in the water.
