PROCLAMATION IN HONOR OF MARTIN LUTHER KING, JR. DAY
A Proclamation in honor of Martin Luther King Day was read aloud by the Town Board as follows:

Whereas, Dr. Martin Luther King, Jr. was an unwavering champion for justice and understanding, whose activism shined the light on injustice and illuminated our common humanity; and

Whereas, Dr. King’s commitment to the ideals upon which America was founded – among them liberty, equality, and opportunity for all – reflect a true and enduring patriotism that changed the course of our country’s history and to this day inspires our continued efforts to bring to life his dream that our citizens and residents “will be judged not by the color of their skin but by the content of their character;” and

Whereas, each of us should contribute to making our community better by working to assure equal opportunity for all citizens, and as Martin Luther King, Jr. Day is the only federal holiday commemorated as a national day of service, it offers an opportunity for us to give back to our community on the holiday and make an ongoing commitment to service throughout the year;

Now, Therefore, Be It Known, on the occasion of the nation’s 34th annual celebration of Martin Luther King, Jr. Day, that the members of the Town Board of Pittsford recognize Dr. King’s legacy of justice, non-violence, equal opportunity and brotherhood, and those aspects of our lives and experience that unite, rather than divide; and proclaim the enduring relevancy of that legacy for our nation and our community; and

Be it Further Known, that it is with appreciation and a commitment to Dr. King’s ideals that the members of the Pittsford Town Board ask our fellow residents to join us in remembering and honoring the life, work and legacy of Rev. Dr. Martin Luther King, Jr., on the national holiday in his honor, January 21, 2019, and every day.

MEMORANDUM

To: Pittsford Town Board
From: Paul Schenkel - Commissioner of Public Works
Date: January 28, 2019
Regarding: Addition of Stop Signs in the Kilbourn Road Neighborhood
For Meeting On: February 5, 2019

Ladies and Gentlemen:

This past November, residents meet with the Town to discuss concerns over the amount and speed of traffic traveling through the Kilbourn Road neighborhoods. Our traffic counters do show that the majority of motorists are exceeding the posted 30 MPH speed limit. From the comments offered at the meeting, it was determined that the addition of Stop Signs at various intersection could help control speed though the neighborhood. As you may recall, Town Board must authorize the addition of any regulatory traffic signs on Town and County roads and that they must be individually listed in the Traffic Control Device Inventory maintained by myself, as the Highway Superintendent.

I recommend that the following Stop Signs be added to the Traffic Control Device Inventory and that they be installed as soon as weather permits:

- Kilbourn Road (South) at Ellingwood Drive, to create a 3-way stop
- Kilbourn Road (South) at Stoneleigh Court, to create a 3-way stop
- Kilbourn Road (North) at Maywood Avenue, to create a 3-way stop
- Ellingwood Drive at Overbrook Road, to create a 4-way stop
- Overbrook Road at Stoneleigh Court, to create a 3-way stop
- Overbrook Road at Kilbourn; Road (North)

The attached map highlights in yellow the new signs.

In the event the Town Board determines that the proposed action should be taken, the following Resolution language is suggested:

Resolved, that based on the recommendation of the Commissioner of Public Works, that Town Board authorizes that additional stop signs be added to the Traffic Control Device Inventory for the Kilbourn Road neighborhood.

<th>What You Will Learn</th>

<tbody>
<tr>
<td>SWPPP Preparation and Review</td>
<td>1/30/2019</td>
<td>This class will explore the preparation, review and implementation of Stormwater Pollution Prevention Plans (SWPPP). This class will review all of the required elements of partial and full SWPPP's, including site planning, Erosion &amp; Sediment Control, hydrology, good housekeeping, post construction management and maintenance. Preparation and review checklists and class examples of residential, commercial, MS4, and MSGP SWPPP's will be provided.</td>
</tr>
<tr>
<td>Wet Pond Design</td>
<td>2/27/2019</td>
<td>This class will examine the various components of a wet pond system, and review design elements needed for the proper operation of ponds. Working with a specific pond site, we will begin by establishing the tributary drainage areas and associated hydrology. We will then determine the various pond storage volumes and complete the design of an outlet structure to manage the flows.</td>
</tr>
<tr>
<td>Floodplains and Watershed Hydraulics</td>
<td>3/27/2019</td>
<td>This class will discuss the importance in being able to adequately model and predict flood plains and floodways as climate change continues to influence flooding conditions. The Hydrologic Engineering Center’s River Analysis System (HEC-RAS) computer program is a powerful tool developed by the US Army Corps of Engineers (USACE) to model river, stream and reservoir hydraulics, and is used by Federal Emergency Management Agency (FEMA) to create the community flood Insurance Rate Maps (FIRM’S). This workshop will provide a hands-on introduction to using the HEC-RAS modeling techniques to generate hydraulic profiles and to analyze and map flood plains and floodways using actual site conditions.</td>
</tr>
<tr>
<td>Stormwater and the Multi-Sector Permit</td>
<td>5/15/2019</td>
<td>The class, which will be co-presented with NYSDEC and Andy Sansone of Monroe County, will review the specific MSGP sectors, SWPPP preparation, and Best Management Practices (BMP). The preparation of the necessary forms to obtain and support MSGP permit coverage (Notice of Intent, Annual Certification Report, and others) will be presented, and the relationship between the MSGP and the MS4 permit will be explained. Specific sector, site, and BMP design examples and problems will be provided.</td>
