Substantial input and feedback from a broad range of our community members is essential to ensure the updated Zoning Code reflects the community's development preferences and future vision!

CHECK THE URL TO MAKE SURE YOU ARE VISITING A LEGITIMATE TOWN WEB PAGE

We recently were made aware that a "scraped" version of the Town website exists. It is a series of static pages that looks like the Town website but the web address that shows is not the Town web address. The site has come up on some Google searches.

The address of any Town department web page or informational web page or link will always begin with www.townofpittsford.org in the address bar. Before clicking on a link from a search for a Town web page, please be sure to check that the web address is the real Town web address. This is actually good advice for any web search you may conduct.

Per our web provider, "scraped" websites unfortunately are becoming a common occurrence. We immediately reported this abuse to the domain registrar so they could take the necessary steps to remove the scraped site. We also reported the site to the search engine sites (google, etc.).

The forged site does not affect the functionality of our own Town website in any way. But as we currently don't know if the faked site can cause any issues for those that click on it, please take care not to click on any of the pages from the faked site. It is possible that malicious content could be copied into those fake pages. So please, check the full web address that shows up in a search, or hover over any link before you click it, and make sure you are visiting the real Town website before you click on any link.
