PRESENTATION BY DIRECTOR OF INFORMATION TECHNOLOGY

Joy Brown, Director of Information Technology, presented proposed projects from the Technology Department. The first step to be completed would be to hire the necessary technology consultants to complete an IT Risk Assessment, a Security Vulnerability Assessment, an IT Security Audit, a PCI Compliance Audit and a Technology Policy Review. These reviews will put the Town in compliance with the NYS SHEILD Act, other state regulations, and will reduce the cost for cybersecurity insurance. The anticipated cost for these amounts to $50,000. The addition of a Security Information and Event Management (SIEM) system was the next project presented. This system has the capabilities to detect a ransomware infection before it can cause major data loss. The expected cost is $1800.
Docuware is a document management software primarily utilized by the Department of Public Works on a daily basis to review documents and property information. Access to this information is helpful when there are questions on a job site. Currently, these files reside on our servers, which limits the ability for staff to access the information outside of Town offices. Completing this migration upgrade to the cloud will offer improved security, the ability to utilize all the features of Docuware, and improve remote access for staff. The proposed update will cost $3,200.

Another software program heavily used by Town staff is Springbook KVS Enterprise. The Town has used this financial software program since 1995. The most recent update completed was in 2008 so now makes sense to upgrade to Springbook’s cloud based software called Cirrus. This move will improve security, backup solutions and accessibility options. Going forward there will be a yearly cost to maintain our access and this cost will be covered among all departments and adjusted in their budget lines. This update has a cost of $31,000.

Additional projects presented were the addition of a backup server ($10,000), the addition of 4 Apple computers at the library ($10,000), an interactive display Town Hall meeting room ($10,000) and lastly Technology training for IT and Town staff as needed.

The total cost for the proposed projects is $147,200. Board members expressed their appreciation for such a thorough presentation. Deputy Supervisor Munzinger then made a motion to approve the transfer of $147,200 in ARPA funds to fund the initiatives as presented this evening and in the I.T. Department proposal dated March 30, 2022, it was seconded by Councilmember Townsend and voted on by members as follows: Ayes: Koshykar, Munzinger, Taylor, Townsend and Smith. Nays: none.

The Resolution was declared carried as follows:

RESOLVED, that the following be approved:
That 1.1680.4404.3.2 be increased by $84,200.00; that 1.1680.2001.3.2 be increased by 28,000.00; that 1.1680.4141.3.2 be increased by $20,000.00; and 1.1680.4604.1.2 be increased by $15,000.00.
The source of these funds will be American Rescue Plan Act (ARPA) Federal Aid totaling $147,200.00. The funds are to be spent as presented in the I.T. Department proposal dated March 30, 2022 and presented at this meeting on April 5, 2022. The Finance Director is authorized to amend the budget as necessary to facilitate the expenditure of these funds.

OTHER BUSINESS

Following many requests from community members requesting more pickleball courts in the Town, Commissioner of Public Works Paul Schenkel presented several possible options to board members to meet community demand. The best location determined for them is at Thornell Farm Park, since much of the infrastructure needed already exists.

Option 1: Convert one of the existing tennis courts into two pickleball courts with a fence between each court. Expected cost is $6000.

Option 2: Convert one of the existing tennis courts into four pickleball courts, adding a fence and gate and shifting two additional courts. Expected cost is $16,000.

Option 2.5: Includes all of option 2, but adds an additional court south of the adjacent basketball court with a gate and fence. Expected cost is $34,000.

Option 3: Create a completely new pickleball space with six courts, fencing, and lighting. This option would require turning some of the parking lot into park space. Expected cost for this project would be $450,000.

Board members thanked Commissioner Schenkel for the well thought out options and discussed the merits of each. Councilmember Townsend inquired about a court sharing agreement with the school district for the use of additional tennis courts. This is not a feasible option because were the schools to shut down as they did during the pandemic, it would end community access to those courts.

Supervisor Smith commented that of all messages received specifically on use of ARPA funds, the overwhelming number were for pickleball courts, and that this is consistent with the experience of our Recreation Department and with previous public requests. In light of what appears to be a clearly expressed community interest, and in light of the modest cost of Option 2, he proposes approving Option 2, to add four pickleball courts. The project would be funded by Town ARPA funds in an amount not to exceed $20,000. This motion was seconded by Councilmember Townsend and voted on by board members as follows: Ayes: Koshykar, Munzinger, Taylor, Townsend and Smith. Nays: none.

RESOLVED, that 1.7110.4003.16.20 be increased by $20,000.00. The source of these funds will be American Rescue Plan Act (ARPA) Federal Aid totaling $20,000.00. The funds will be spent on a
Pickleball Court Project as presented by the DPW Superintendent. The Finance Director is authorized to amend the budget as necessary to facilitate the expenditure of these funds.

Councilmember Townsend shared that the Environmental Board is progressing with establishing a vision for the community climate plan as part of the Town’s Clean Energy Community submission. They are planning to have an intern complete a greenhouse gas study over the summer.

Councilmember Koshykar offered her appreciation for the public comments and emails received regarding the ARPA funding. She also thanked staff for removing a safety concern by completing the removal of the neglected house and accessory structures at 81 Mitchell Road. Councilmember Koshykar asked if there were any updates regarding the overlapping of School Board and Town Board meetings. Supervisor Smith reported that he has spoken with Superintendent Pero about Councilmember Koshykar’s suggestion of changing meeting dates so Town Board and School Board do not overlap. The School Board moved its meetings to Tuesday when it became clear that meetings on Monday were inconvenient for so many. The Supervisor recommended against changing regular meeting times for the Town Board, noting that the technology is in place for anyone to view both Town Board and School Board meetings and also to comment at either or both by email, in real time during Town Board meetings.

Deputy Supervisor Munzinger described to the Board the path forward chosen by the Equity Advisory Committee. The Committee plans to continue meeting. It intends to serve as a resource to the Town Board, Supervisor and Town Staff, to respond to inquiries from any of them that may be made from time to time. Because former Councilmember Beckford’s term on Town Board has expired, he will continue to serve on the Committee as a citizen member. The Committee will seek to add a student member from each of the high schools.

PUBLIC COMMENT
Comments were read from Kevin Ryan and Jon Sussman.

As there was no further business, the Supervisor adjourned the meeting at 7:41 P.M.

Respectfully submitted,

Renee McQuillen
Town Clerk
