When applying for ANY Permit or Plumbing License, documentation of appropriate insurance coverage must be submitted for: General Liability, Workers Compensation, and Disability Insurance as required by State and Federal Law. This documentation should be provided at the time of your initial application. Failure to do this will delay the processing of Applications.

**General Liability Insurance:**

- Policy Date Coverage must be in place before a Permit is issued and maintained for the project duration.

This may be done through the Workers Compensation Board by completing a “CE-200” Form. This form may be filled out on line at www.businessexpress.ny.gov. ### Insurance Considerations for Homeowners:

Homeowners who have hired a Contractor to work on their home are encouraged to have their Contractor provide the information above directly to the Town as early in the application process as possible to help expedite the project review. The Town cannot issue a permit until this information is received and reviewed.

Homeowners who will be working on their own residence or have hired a Contractor to assist on an extremely limited basis MAY be eligible to apply for an exemption from providing specific proof of Insurance. To do this the Homeowner will need to complete a CE-200 form through the Workers Compensation Board. This form may be filled out on line at www.businessexpress.ny.gov.

### Submission of Insurance Documentation:

One of the most common reasons for the delay in processing applications is the incomplete submission of insurance documentation by the Applicant. Please carefully follow the instructions above to avoid delays in processing applications.

Insurance documentation is administratively processed through the Town’s Building Department. When submitting Documentation, include the project’s name and address location. Documentation may be submitted:

- **By Mail:**
