# MS4 - Municipal Separate Stormwater Sewer Systems

The Phase II Stormwater Rule requires MS4 Operators to develop a stormwater management program (SWMP) which includes six minimum control measures (MCMs) that, when implemented together, are expected to reduce the discharge of pollutants to the maximum extent practicable. The goal of the program is to improve water quality and recreational use of waterways.

Public Education and Outreach

Illicit Discharge Detection and Elimination

Post - Construction Stormwater Management

Public Involvement and Participation

Construction Site Stormwater Runoff Control

Pollution Prevention / Good Housekeeping for Municipal Operations

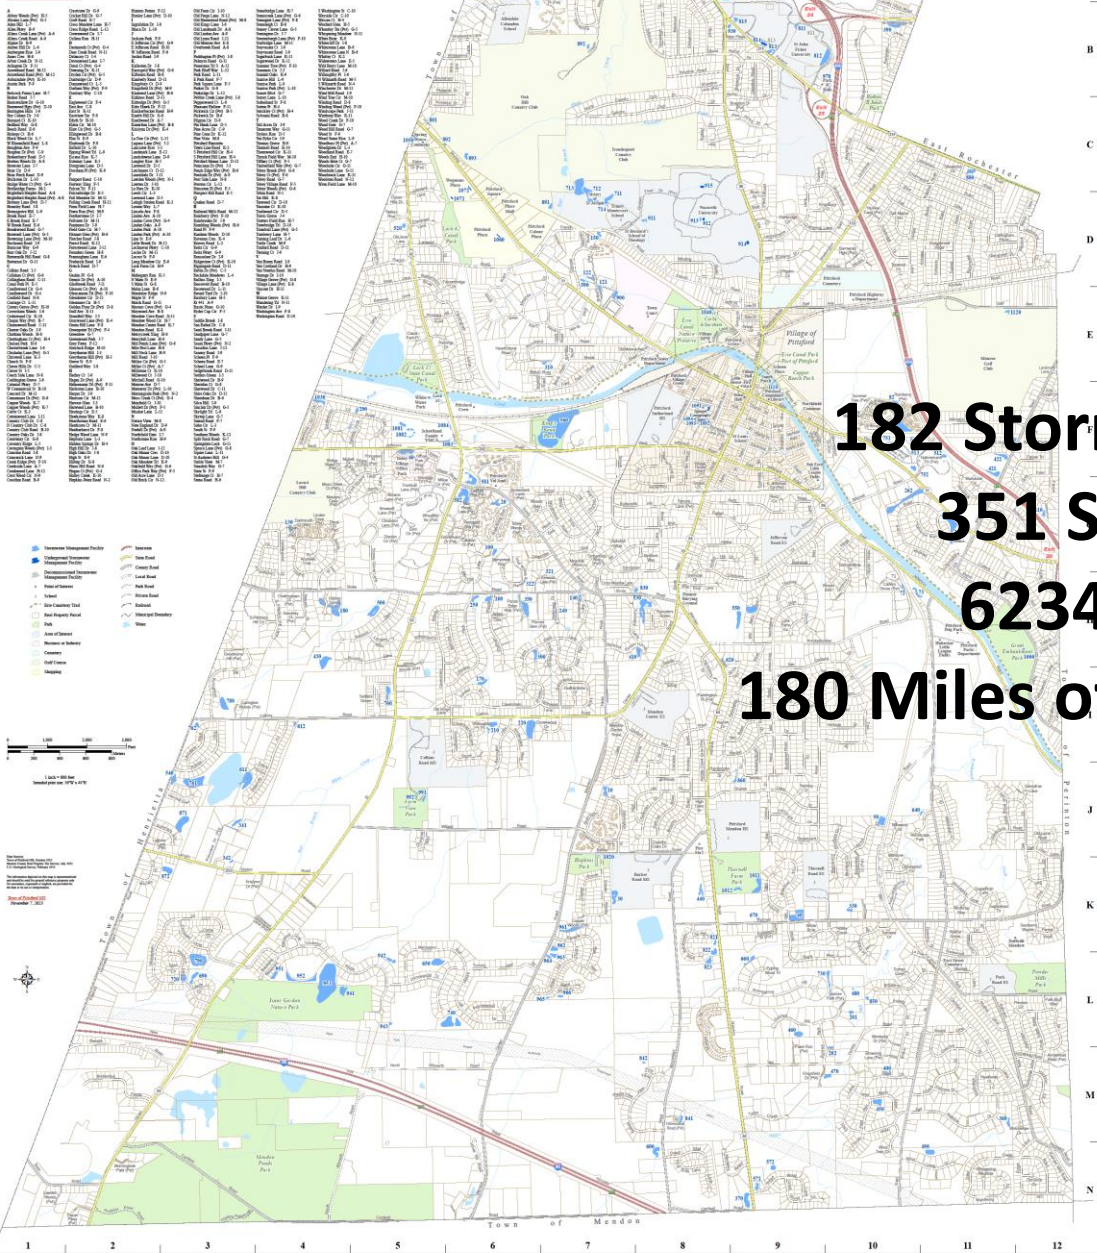

- New permit came out in December 2023
- Annual report plus two new interim progress reports
- Requires SWPPP creation and inspections for high priority municipal facilities
- Extensive new mapping requirements
- Inspections of catch basins, ponds, outfalls, municipal facilities, etc. increase in frequency and reporting criteria
- New requirements for construction site management and illicit discharge reporting
- Currently working on an updated Stormwater Management Program Plan and our first interim report

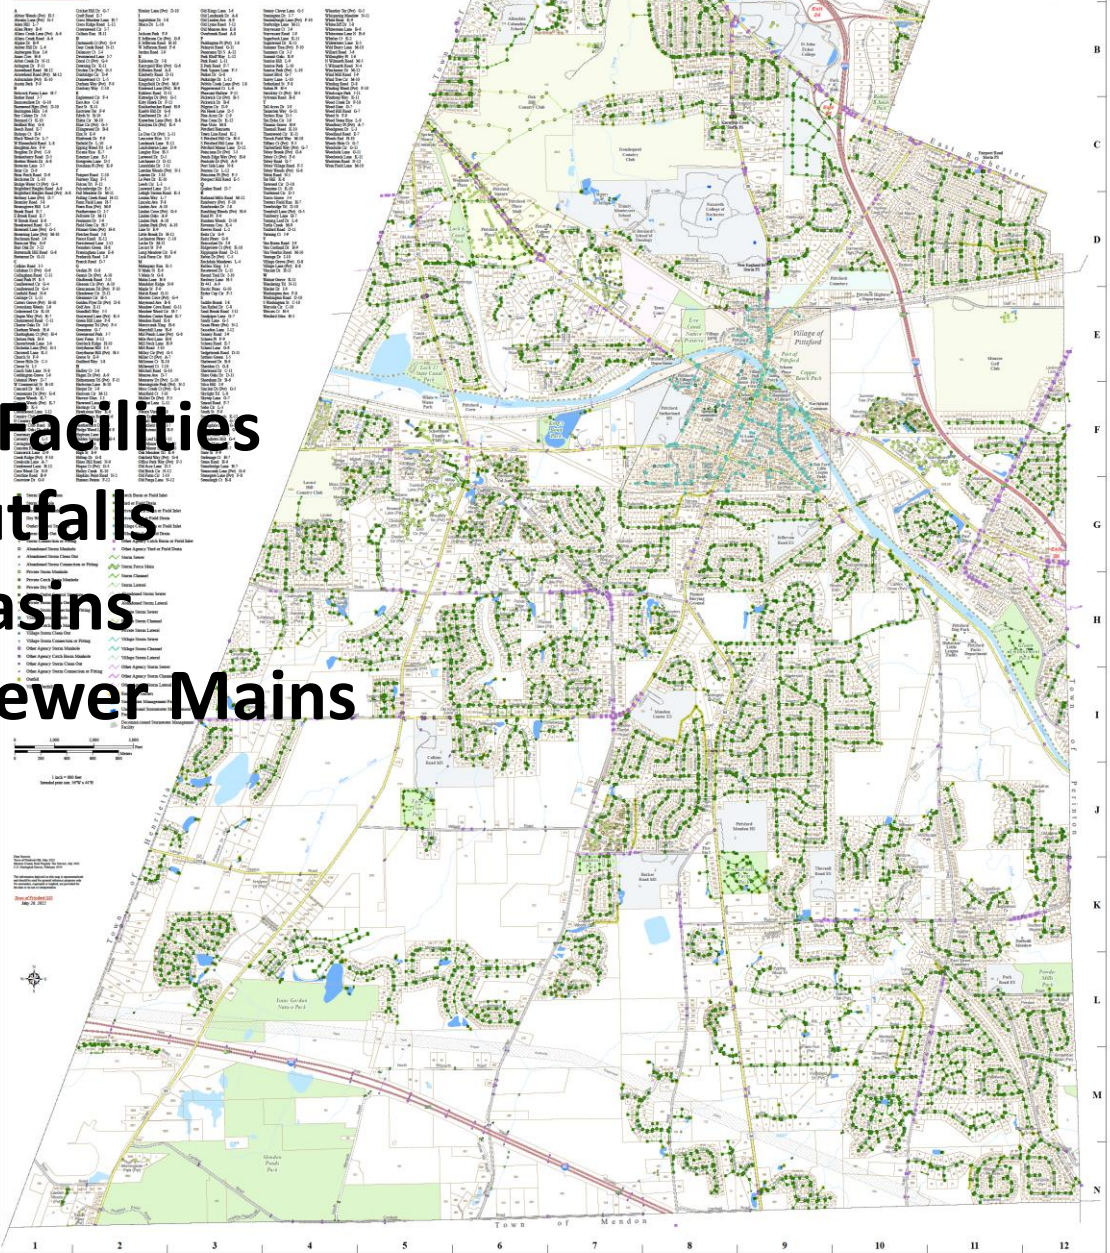

# STORMWATER MANAGEMENT FACILITIES Town of Pittsford Monroe County, New York

**182 Stormsewer Facilities**  
**351 Sewer Outfalls**  
**6234 Catchbasins**  
**180 Miles of Stormsewer Mains**

# STORM SEWERS Town of Pittsford Monroe County, New York

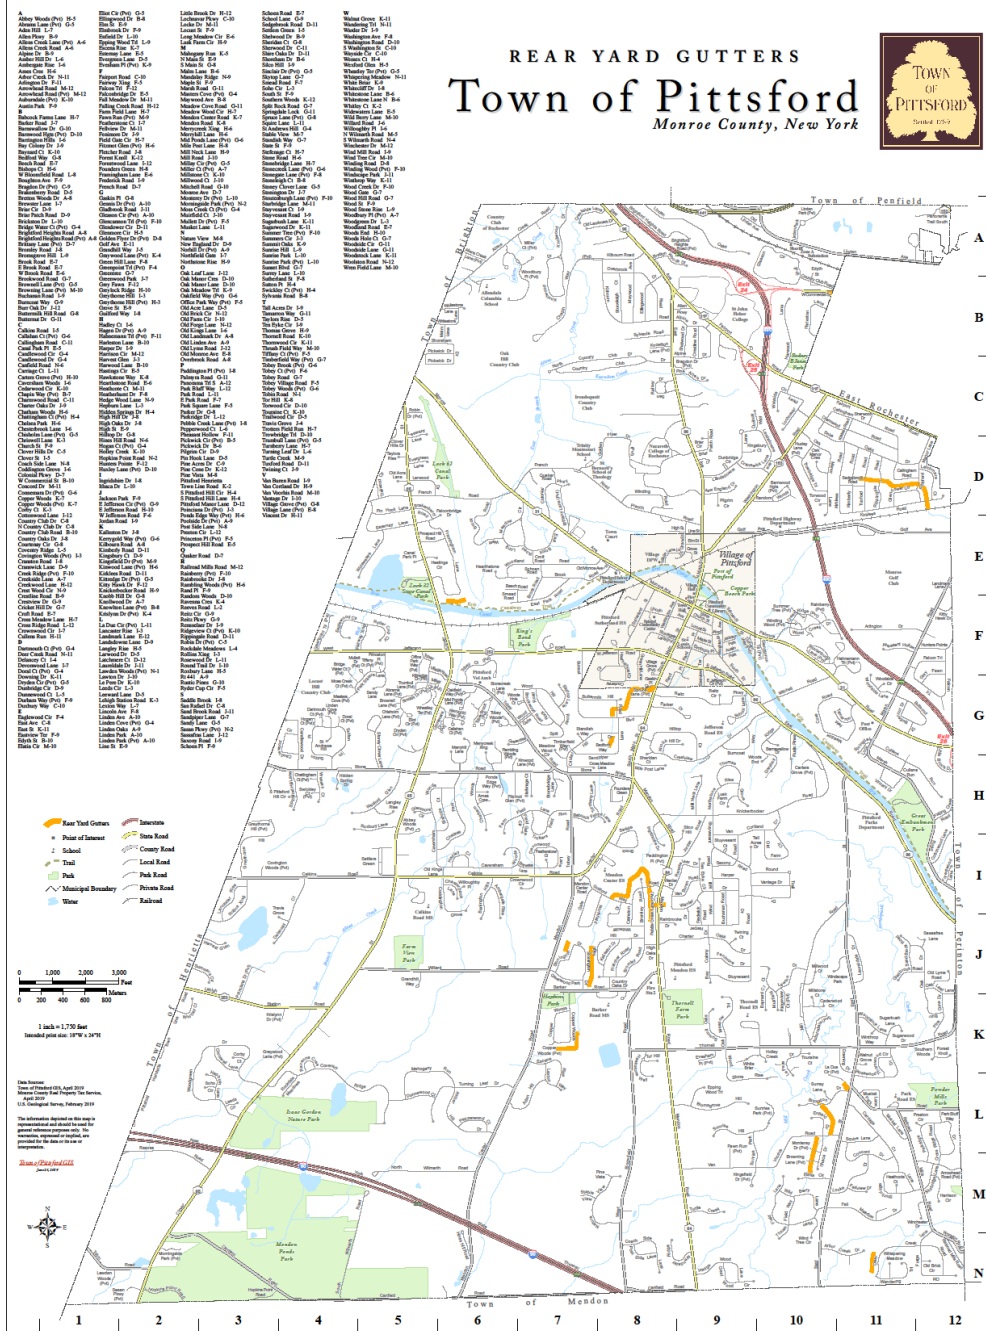

# REAR YARD GUTTERS

## Town of Pittsford

Monroe County, New York

## Rear Yard Gutters

- 2.75 miles
- Often must be cleaned by hand
- Critical to the operation of closed stormsewers and ponds
