Retirement: Making Your Money Last

Friday, April 10 | 2:00-3:00pm | Fisher Meeting Room

Attendees will learn investment strategies to help stretch their money through retirement. In addition, we will explore how to address key concerns such as inflation, health care expenses, and market volatility as well as how to prepare in advance for things that may not go as expected. Presented by Robert Nestrick, financial advisor at Edward Jones. [Registration recommended.](#)

Food Choices for Our Health and Environment

Sunday, April 12 | 2:00-3:00pm | Fisher Meeting Room

Color Pittsford Green presents a panel discussion on the impacts of food production on the environment. The current system is a major contributor to greenhouse gas emissions and climate change, and is a major cause of biodiversity loss and pollution. However, changing our food choices can provide a meaningful way to both tackle climate change and to improve human health. Discussion will cover local initiatives that support resilient systems supporting human and planetary health. [Registration recommended.](#)

FreeShop: Thrifting at The Library

Saturday, April 18 | 2:00-3:30pm | Fisher Meeting Room

All are invited to experience garment thrifting at the library! Peruse racks of carefully selected pre-loved garments and take home a new-to-you item to add to your spring wardrobe, all for free. RIT students will also be on hand, sharing their experiences with thrifting, mending, and upcycling their wardrobe. The community is invited to donate up to three clean (washed) shirts, hoodies, or button-downs of all styles. Items can be dropped off at the library starting March 1. Garments should fit bodies ranging in sizes from middle-school through adult. Selected items will be available to patrons at the FreeShop thrifting event at the library on April 18. All items are free, but attendees are invited to bring a canned good to be donated to the Pittsford Food Cupboard.

Invasive Insects in Your Trees

Monday, April 20 | 1:00-2:00pm | Fisher Meeting Room

What happens when invasive species move in and throw nature off balance? We'll break down how ecosystems work, with a special focus on insects, some of the most important (and most ignored) players in the food web. We'll also touch on invasive plants, fungi, and birds, and end with simple ways you can help protect local habitats. Presented by educator Amy Knickerbocker of High Falls Tree Service. [Registration recommended.](#)
